- jQuery
- Git

EDUCATION

Fullstack developer

Coding Academy - Misterbit

June 2022 - Oct 2022

In coding academy I have learned how to build both frontend and backend with the latest technologies while practicing coding daily, team work and self learning in the process.

LANGUAGES

English - Fluent

Hebrew - Native

WORK EXPERIENCE

Frontend Developer - Freelance

2023 - current

As a freelance frontend developer, I collaborated with graphic designers to assist them in completing their final projects for their degree. I applied my technical expertise in web development and user interface design to bring their creative visions to life. During this period, I successfully completed the following projects:

[Chinese gender table \(link\)](#) (desktop)

- Worked closely with the graphic designer to understand their requirements and translate their design concepts into a functional website.
- Implemented interactive features and animations to enhance the overall user experience.

PROJECTS

- [Texture Generator \(link\)](#)- Texture generator from real life textures. pure css code export
- [Personal website \(link\)](#) – my personal portfolio with a fun 3d canvas interface
- [Animember \(link\)](#)– anime information app with data from an updated API
- [Daily color \(link\)](#) – Generates a daily color with a corresponding image grid containing images with the color (API from pexels)
- [Bdayz \(link\)](#)– Birthday reminders
- [3D Scenes \(link\)](#) – multiple interactive 3d canvas scenes
